WARNING!!!

To all suppliers and potential suppliers of goods to the Government Printing Works

The Government Printing Works would like to warn members of the public against an organised syndicate(s) scamming unsuspecting members of the public and claiming to act on behalf of the Government Printing Works.

One of the ways in which the syndicate operates is by requesting quotations for various goods and services on a quotation form with the logo of the Government Printing Works. Once the official order is placed the syndicate requesting upfront payment before delivery will take place. Once the upfront payment is done the syndicate do not deliver the goods and service provider then expect payment from Government Printing Works.

Government Printing Works condemns such illegal activities and encourages service providers to confirm the legitimacy of purchase orders with GPW SCM, prior to processing and delivery of goods.

To confirm the legitimacy of purchase orders, please contact:

(4) The user of a vehicle subject to a rebate on an e-road and who uses that vehicle for purposes or in circumstances other than for which the rebate was granted, shall be liable to pay e-toll, for the appropriate category of user as if the rebate had not been granted.

Procedures applicable to all exemptions

7. (1) Where exemption has been granted by the Agency, as applicable, from the payment of toll on a particular e-road–

- (a) the person who registers a vehicle with the Agency will be issued with an e-tag by the Agency for each vehicle, which e-tag will constitute a means of identifying the vehicle in respect of which the exemption has been granted; and
- (b) a document identifying the person who registered with the Agency will be issued by the Agency, if so decided by the Agency, which document is not transferable and which must be kept in the vehicle or on the person of the user when using an e-road for which exemption or rebate has been granted.

(2) The e-tag issued by the Agency for each such vehicle–

- (a) must, once issued, be affixed to each vehicle which has registered with the Agency in the manner specified in the Specification Regulations issued by the Minister in terms of section 58(1)(dB) of the Act; and
- (b) must, in order for the vehicle to be exempt from the payment of toll, be affixed to the relevant vehicle or vehicles of the user, as applicable, when using an e-road: Provided that this requirement shall however not apply to exempt public transport vehicles, prior to expiry of the transition period mentioned in the relevant notice published in the Government Gazette to provide for the exemption.

(3) The person who registers the vehicle with the Agency and for which exemption has been granted by the Agency must–

- (a) within 14 days of changing his or her physical or postal address or any of the particulars supplied to the Agency at the time of registration, notify the Agency of his, her or its new address or such new particulars;
- (b) notify the Agency within 24 hours after he, she or it becomes aware of the theft of the motor vehicle;
- (c) furnish information regarding the motor vehicle which is or may have been at any time in his, her or its possession to any authorised officer as defined in the National Land Transport Act, if requested to do so;

- (d) notify the Agency of any declaration that the motor vehicle has been declared unfit for use within 24 hours after the motor vehicle has so been declared unfit;
- (e) notify the Agency within 24 hours of the e-tag becoming damaged or stolen or destroyed and re-apply for a new e-tag in terms of the e-Road Regulations; and
- (f) ensure that the number plates of the motor vehicle that he, she or it is operating are affixed in the manner prescribed in regulation 35 of the National Road Traffic Regulations, 2000 made in terms of the National Road Traffic Act, and are clearly visible at all times.

(4) Registration will, subject to sub-regulation (9), be valid for three years from the date of registration of the vehicle and the person who registers the vehicle as an exempt vehicle, must apply to the Agency for renewal of the registration not less than 30 days prior to the registration having lapsed by completing the attached Annexure A and supplying the required particulars and documents to the Agency.

(5) If the vehicle that is exempt and is registered with the Agency, in terms hereof, is stolen, scrapped, sold or otherwise disposed of, or declared permanently unfit for use, the person who applied for registration of the vehicle must notify the Agency and supply the VLN or by telephoning an e-toll customer service centre, as contemplated in the e-Road Regulations, immediately on becoming aware that it was stolen, scrapped, sold or otherwise disposed of, or declared permanently unfit for use.

(6) The person who applied for registration of the vehicle in respect of which exemption was granted must notify the Agency within 24 hours if a vehicle registered with the Agency changes ownership or if an application is made to transfer the relevant operating licence or permit, or if the operating licence or permit lapses or is cancelled.

(7) If the person who applied for registration of the vehicle in respect of which exemption was granted elects to replace a vehicle with another vehicle and the new vehicle would still qualify for the exemption, then the person who applied for registration of the vehicle must apply for an e-tag for the new vehicle by completing the attached Annexure A and providing a certified copy of the motor vehicle licence certificate and other information required by the Agency, and the registration will not apply in respect of the new vehicle until the new e-tag issued by the Agency is affixed to the new vehicle in the manner prescribed in the Specification Regulations and, in the case of an exempt public transport vehicle, until the required operating licence for the new vehicle has been obtained.

(8) Exemption shall not apply where there has not been compliance with the requirements of sub-regulations (5), (6) and (7) and the user of the vehicle shall be liable to pay toll for the appropriate category of user as if the exemption had not been granted.

(9) Exemption from the payment of toll will lapse where—

- (a) the e-tag is used for any purpose other than in connection with the exemption granted to the vehicle;
- (b) the vehicle which is exempt from the payment of toll enters an e-road without the e-tag properly affixed to the vehicle: Provided that this requirement shall however not apply to exempt public transport vehicles, prior to expiry of the transition period mentioned in the relevant notice published in the Government Gazette to provide for the exemption;
- (c) the person using or driving the vehicle fails to comply with these regulations or the e-Road Regulations;
- (d) the operating licence or permit, if applicable, on which exemption was granted lapses or is withdrawn or cancelled for any reason;
- (e) the vehicle for which the exemption is granted is at any time not properly licensed or a valid roadworthy certificate has not been acquired for the vehicle as required by the National Road Traffic Act; or
- (f) the person using or driving the vehicle tampers with or defaces a number plate on such vehicle in contravention of the National Road Traffic Act.

(10) Where a person is required by any provision contained in these regulations to give notice to the Agency of any occurrence or for purposes of complying with any provision of these regulations, then such notice must be given either by contacting the call centre or by visiting an e-toll customer service centre, or by any other means of notification that is given on the website as defined in the e-Road Regulations.

Requirements for owner of vehicle for which a rebate is claimed

8. In order to claim the rebate contemplated in regulation 6 for a vehicle the owner of the vehicle must—

- (a) be a registered user as defined in the e-Road Regulations;
